# Continuous Integration and Deployment for AngularJS and Node.js

Getting Started

Alexander Zanfir
alex@socialplay.com

pluralsight
hardcore developer training

Who is this Course for?

New	Learn CI
Existing App	Learn Test First

Course Outline

1 Getting Started	**2** Deployment Intro
3 Testing and Deployment	**4** Continious Integration

Test First Popularity

Why is everyone not using it?

Critical Mass

Long Term vs Short Term Effort

What Does Testing Have to do With Deployment?

Big Projects = Big Bugs

Test First in Development Teams

Test Overhead

Guarantie Tests Run!

Tests Take too Long to Run!

Run All Tests Before Deploy

Demo App

Test First

BDD

Basic App

Editor

Cloud9

Features I Like

Use your own Editor

Module Outline

< > Setup NodeJS Environment

< > Setup Angular
